An improperly set "center" can cause stuff to sound very low in the mix and sound like it's being pushed back or something. It's kind of hard to explain without getting very technical. Waves has this plugin to help try to restore that center without damaging the actual wave form. It's a very simple plugin to use, and it doesn't have too many ...

Manuals for Audio & Video | Sony Canada

At first sight, Waves' Center appears similar to PSP Audioware's StereoController, Brainworx's bx_control, Voxengo's excellent freeware MSED and indeed Waves' own S1 Imager, all of which employ M/S (Middle & Sides) techniques to control perceived stereo width or skew the image.

Waves Center - Sound on Sound

"The Edge Plus owes its expert tuning to a company called Waves Audio, which Motorola tasked to ensure the quality of the phone's sound could match its loudness. Waves has done an excellent job."
