National EMS Week - naemt.org

Disasters like Hurricane Sandy, the tornadoes in Joplin, MO, and the flooding in Louisiana have shown that major disasters can overwhelm state, local, tribal and territorial resources. When that happens, the National Disaster Medical System (NDMS) is there to help fill in the gaps, supplementing health and medical systems and response capabilities.

National Disaster Medical System

Emergency Medical Services (EMS) is a critical component of our nation's emergency and trauma care system, providing response and medical transport to millions of sick and injured Americans each year. At its best, EMS is a crucial link to survival in the chain of care, but within the last several years, complex problems facing the emergency care system have emerged.
