The website gives you access to over 1 million free e-Books and the ability to search using subject, title and author.

Manual Car Definition

A car needs a full working transmission (or gearbox) in order to allow the vehicle to change gears, but the inner workings of a vehicle differs greatly between a manual transmission car and an automatic transmission car. A manual car is recognisable from the inside, as it contains a clutch pedal, which is used to change gears, as well as a gear shift stick between the two front seats, which offers full control of the car and between 5-6 gears and reverse.

Manual vs. Automatic Car Transmission: Which is Best?

The difference between manual and automatic cars is that manual cars use manual transmission whereas automatic cars use automatic transmission. In a manual car, the driver is responsible for shifting the gears as the car's speed changes, but in an automatic car, changing gears happens automatically.

What Is the Difference Between Automatic and Manual Cars?

1919 Ford Motor Car and Truck operating manual An owner's manual (also called an instruction manual or a user guide) is an instructional book or booklet that is supplied with almost all technologically advanced consumer products such as vehicles , home appliances and computer peripherals .

Owner's manual - Wikipedia

Manual transmission cars require very little maintenance, and generally maintenance and repairs end up being significantly less costly. Be warned, however, because one thing that a manual has that the automatic doesn't have to worry about is the clutch, and if that thing quits on you, then you could be in trouble.

Manual vs Automatic Car Transmissions: Pros & Cons ...

: a vehicle that has a system for changing gears that has to be operated by the driver : a car with a manual transmission

Manual | Definition of Manual by Merriam-Webster

Cars with a manual gearbox are better for highway than urban driving because of the extra attention needed for shifting gears in a city environment. A car with an automatic gearbox is usually a better choice for the urban driver, but every driver has their own personal preference.

How to Drive Manual (with Pictures) - wikiHow

A manual transmission (also known as a manual gearbox; abbreviated as MT, and sometimes called a standard transmission) is a multi-speed motor vehicle transmission system, where gear changes require the driver to manually select the gears by operating a gear stick and clutch (which is usually a foot pedal for cars, or a hand lever for motorcycles).
